

Dear First Aid Instructor,

We are pleased to announce that the new NSC Pediatric First Aid, CPR & AED PLUS textbook package has been approved by the state of Louisiana.

In order to gain approval by the state it was necessary to print a 64 page supplement and package it with the new textbook. The textbook package still includes the NSC course completion cards. The Instructor Resource Kit is the same for all instructors and the additional chapters for the Instructor Manual have been posted on the Instructor Resource Center. The additional Instructor Manual chapters can be found at:

[http://www.nsc.org/safety\\_work/FirstAidResource/InstructorResource/Pages/AdministrativeResources.aspx](http://www.nsc.org/safety_work/FirstAidResource/InstructorResource/Pages/AdministrativeResources.aspx).

As a reminder all current instructors will need to purchase new teaching materials, which have been updated with the 2010 CPR and ECC Guidelines. Please contact your Training Center Coordinator at 800-621-6244 or local Chapter to transition to the new program.

First Aid Department  
National Safety Council

December, 2008

Dear National Safety Council Instructors and Training Centers in Louisiana,

I am writing to share some great news!

The National Safety Council's approval for CPR training and First Aid training of Class A and Class B Child Care Centers in Louisiana was to expire December 31, 2008. We applied for an extension of this approval and were granted one on December 22. Our approval will expire on December 31, 2011. A copy of the approval letter is enclosed for your review and files.

If you teach a Pediatric First Aid, CPR, and AED course to day care providers in Louisiana, please fill out the course name on the certificates as follows. Inspectors who monitor the course completion cards for Class A and Class B Child Care Centers will be looking for this exact wording:

The green, CPR certificate should read:

**Adult & Child CPR and AED and Infant CPR**

The blue, First Aid certificate should read:

**Child and Infant (Pediatric) First Aid**

If you teach an adult first aid course in Louisiana, the blue First Aid certificate should read:

**Adult First Aid.**

Thank you for your continued support of National Safety Council Emergency Care Programs. We are extremely proud of our instructors and our course offerings, and we know that our quality course materials coupled with your dedication and skillful teaching of adult and pediatric CPR and first aid translates into more lives saved. Keep up the great work!

Sincerely,

A handwritten signature in black ink, reading "Barbara Caracci". The signature is written in a cursive style with a long horizontal flourish extending to the left.

Itasca, Il. 60143-3201

Dear Ms. Caracci,

Based on the review of your application and there were no changes to the following courses, NSC meets the Louisiana requirements for CPR Training and/ or First Aid Training for Class A and Class B Child Care Centers:  
CPR: Adult, Child and Pediatric  
CPR & AED Adult and Child  
First Aid: Adult and/or Pediatric

You period of validation continue and will expire on December 31, 2011. You must notify the EMS-C, Child Care Committee and the Bureau of Licensing within 30 days of any changes to your course(s) or instructor materials. To continue approval you submit a complete application for re-evaluation 3 months prior to expiration.

To insure the highest quality of training in Louisiana, there may be outside monitoring of the instructors and/or courses. We appreciate your support to the health of the children of Louisiana.

Sincerely,

Peggy Chehardy, EdD, CHES  
EMS-C Child Care Committee
