Making Sense of Safety

Thursday, May 6, 2010 8am – 4pm

This one day training program will help you understand how safety can reduce your workers' comp and health care costs through proactive management. Making Sense of Safety gives you the tools to make educated decisions about the direction of your safety program.

Training goals

- Contain soaring workers' compensation rates
- Improve morale
- Reduce injuries, illnesses and related healthcare costs
- Increase employee retention

Who should attend?

This course is specially designed for Human Resource professionals including managers and supervisors.

What you'll learn:

Evaluate the role that worker safety plays in the total profitability of your business.
Understand the business motivation for safety and sell it to your organization.
Implement proven safety processes step-by-step.
Introduce a balanced approach to safety that empowers employees, inspires continuous improvement, and satisfies OSHA requirements.
Understand how to benchmark your safety performance.
Learn to identify if you are a candidate under OSHA's targeting program.

The result:

Bottom-line solutions that are cost-effective, simple to understand, and easy to implement.

1.0 days

0.6 CEUs/0.6 COCs

Fee: Members \$295; Nonmembers \$385
