New Orleans**

Achieve a competitive advantage in safety management

**National Safety Council's
DDC – Professional Truck Driver
Instructor Development Course (3 day course)
Wednesday – Friday, May 26 - 28, 2010**

DDC-PTD has always been the most comprehensive training course available for the professional truck driver, but with the revised format it's now the most flexible, too! The new format allows the trainer to customize the length and topics of the driver course for each audience.

Training Goal

- ❖ Our 3-day DDC-PTD instructor course will train you to be a thorough and versatile trainer.

Who should attend?

- ❖ Safety managers, fleet managers, and driving school instructors that work with drivers of articulated vehicles should all attend this course.

Why should you attend?

DDC-PTD addresses all the issues important to the driver on-the-road. It was developed using input from drivers, fleet safety managers, educators, and insurance professionals nationwide. With insurance rates for the trucking industry skyrocketing, your organization can reduce costs and save lives by including DDC-PTD in your driver training program.

Topics covered in the instructor course include:

- ❖ How to get students involved in the course
- ❖ How to use course materials
- ❖ Administrative responsibilities
- ❖ Adult learning needs
- ❖ Developing effective teaching skills
- ❖ Defensive driving techniques
- ❖ Following distance and passing
- ❖ Backing and turns
- ❖ Chemical abuse issues
