Bloodborne and Airborne Pathogens Train-the-Trainer **Thursday, August 25, 2010** **4pm – 6pm**

The Bloodborne and Airborne Pathogens Train-the-Trainer course addresses the OSHA Bloodborne Pathogens Standard and is your tool for training employees or members of the general public who may come in contact with infectious materials (blood and other potentially infectious materials) as part of their jobs. Such training is required for first responders, dentists and dental hygienists, lab workers, police, EMTs and paramedics, animal handlers, custodians and others.

Everything you need to teach this 2-hour Bloodborne and Airborne Pathogens course is included in the Train-the-Trainer fee (Product #73305-0000):

- Instructor's manual with lesson plans, exams and additional scenarios for class discussion
- Instructor's CD including PowerPoint® presentation
- 21-minute DVD video with standardized and correct demonstrations of skills
- Student workbook (Product #73304-0024K*)
 - 64-page full color workbook which covers:
 - OSHA Bloodborne Pathogens Standard
 - Universal precautions
 - Personal protective equipment (PPE)
 - Needle Stick Safety and Prevention Act
 - Nationally recognized course completion card

Updated in 2008, the improved course material covers new and additional content on: hepatitis B virus (HBV), hepatitis C virus (HCV), human immunodeficiency virus (HIV) and tuberculosis (TB), influenza/pandemic, eye protection, reusable sharps, recordkeeping, exposure control plans, hand washing and more.

1/2-Day Train-the-Trainer Course

Fee: Member \$165 per person; Non-member \$195

Advanced registration required. Call for details.

*Additional Student Workbooks available for \$9.25 each + s/h. Quantity discounts available. Includes nationally recognized course completion card.
