Safety Management for Small Business

Wednesday, November 17, 2010 8am -4pm

There are a lot of demands on a small business manager's time.

Who Should Attend

Any small business owner, employer, manager, or employee.

What You Will Learn

Employee safety is an essential part of any small business. During our one-day Safety Management for Small Business course, you'll learn skills to manage an effective safety program that will:

- Reduce the number and severity of work-related injuries and illnesses
- Manage your workers' compensation costs
- Improve employee morale and productivity

The program covers OSHA's Four-Point Workplace Program:

- Regulatory compliance
- Safety inspections
- Incident reporting and investigation
- OSHA recordkeeping requirements

Attend this program to gain practical knowledge, skills, and access to valuable safety resources.

- Recognize, evaluate, and **control or eliminate hazards**.
- Determine when **personal protective equipment** is an acceptable method of hazard control.
- Identify elements necessary for compliance with **OSHA's Hazard Communication Standard**.
- Identify key elements and steps for a customized **emergency preparedness and response** plan.
- Create an **action plan on safety performance issues** to implement at your facility.

1-day course

Member \$230, Nonmember \$300

Advanced registration required, call for details.
