Safety Training Methods

Monday – Friday, October 24 – 28, 2011 8 am – 4:30 pm

The National Safety Council's performance-based training approach will help you achieve your safety and business goals. We'll show you how to reach your desired level of performance.

TRAINING GOALS

Upon completion of the Safety Training Methods course, you'll be able to:

- Improve the safety performance of your workforce.
- Make educated decisions about the safety and health training needs of your workforce; needs analysis, performance objectives, instructional strategy and methods, content, media, delivery, evaluation, and costs.

WHO SHOULD ATTEND?

You should attend if you are a manager, supervisor, human resource representative, or employee who is responsible for the planning, development and/or delivery of safety and health training programs.

WHY SHOULD YOU ATTEND?

Whether you're coordinating training development, purchasing materials from vendors, contracting with trainers, or conducting training yourself, you'll find this course valuable.

Safety Training Methods is a 4.5 day (30 hours) course that focuses on the knowledge and skills required to assess your training needs, as well as plan, organize, create, and deliver performance-based safety and health training programs. While emphasis is on developing and delivering instructor-lead/classroom training, you'll become acquainted with other instructional methods and media used to effectively train employees on safety and health issues.

This course is a challenging and interactive learning experience. Combined with information, numerous group and independent learning activities provide opportunities to apply newly learned concepts to a variety of safety and health training scenarios.

During the training, you will:

- Plan and design a training program applicable to your work environment.
- Learn strategies and methods that address adult learning needs.
- Complete a training needs analysis.
- Identify training and non-training solutions for safety and health case studies.
- Calculate direct and indirect training costs.
- Discuss safety and health training issues with other safety professionals.

4.5-Day Course 3.0 NSC CEUs

Fee: Member \$1,195; Nonmember \$1,550

Advanced registration required, call for details.
