REGULATORY COMPLIANCE SERIES

Crane & Hoist

Tuesday, November 29, 2011 8:00 am – 12:00 noon

You know the importance of compliance, but sometimes it's hard to know where to start. That's where the National Safety Council's Crane & Hoist Safety Compliance Training can help. Our safety professionals translate OSHA regulations on overhead and gantry cranes into terms you can use, and show you how to put them into practice.

In just four hours, you'll learn practices and procedures that will keep you in compliance and, best of all, protect your employees.

The seminar covers:

- OSHA Overhead and Gantry Cranes Regulation (29 CFR 1901.179, Subpart N) and Slings Regulation (29 CFR 1910.1984, Subpart N)
- Crane and sling terminology
- Four types of crane inspections
- Safe sling operation procedures
- Recordkeeping requirements for slings
- The importance of best practices

4-hour course

Member \$99.00

Nonmember \$135.00

Advanced registration is required. Please call for details.
